

We manufacture trusted products that are of service to industry and to everyday living.

We are meeting a broad variety of customer expectations both in Japan and overseas, while applying our original technical development to improve our products in each business area.

Pipes & tubes business

We manufacture the pipes and tubes that are used in energy development projects and other fields. Sumitomo Metals ranks at top in the world in technical development capability, product quality, and a diverse product lineup. We have an unparalleled presence in the global high-end seamless pipe market. We are currently building a seamless pipe manufacturing base in Brazil to enhance Sumitomo Metals' global supply system.

Steel sheet, plate, titanium & structural steel business

We manufacture steel sheets for automotive applications, steel plates for the energy and shipbuilding industries, steel beams for construction, and titanium products. Our business is closely tied to the needs of our customers, with whom we have built a long-term relationship of trust. We are actively expanding in overseas markets, aiming to raise our presence in markets with growth potential.

Railway, automotive, machinery parts & other steel business

We manufacture distinctive products including wheels and axles for rolling stock, a market where we command a 100% share in Japan, and automotive forged crankshafts, a market where our global share is 8%. Our subsidiaries are focusing on developing their own products: Sumitomo Metals (Kokura) Ltd. focuses on the automotive field and manufactures specialty steel bars and wire rods, and Sumitomo Metals (Naoetsu) Ltd. manufactures stainless steel precision rolled strips.

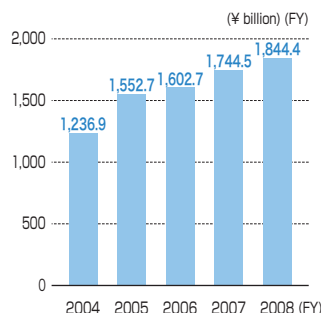

Company Profile

- **Incorporated** July 1949
- **Paid-in capital** ¥262,072 million (as of March 31, 2009)
- **Employees** 24,245 (consolidated basis, March 31, 2009)
- **Net sales** ¥1,844,422 million (consolidated basis, fiscal year 2008)
- **Location**

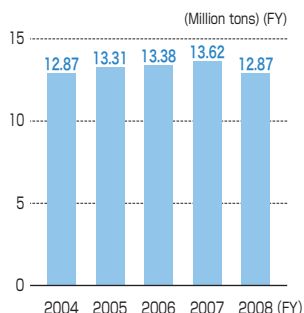

Osaka Head Office
5-33, Kitahama 4-chome, Chuo-ku, Osaka 541-0041, Japan
Tel: +81 6-6220-5111

Tokyo Head Office
8-11, Harumi 1-chome, Chuo-ku, Tokyo 104-6111, Japan
Tel: +81 3-4416-6111

● Net sales (consolidated)

● Crude steel production
